Identifying Goals for the District and Establishing Priorities
Data Analysis Summary Worksheet

As in most communities, decisions regarding what to prioritize can be a difficult. The Steering Committee must be realistic about how much data gathering and outreach they can accomplish when making prioritization decisions for the site. There will always be someone who wants a perfect set of data to achieve this. Unfortunately time constraints and money makes this nearly impossible. Utilize this worksheet to assist you in your data assessment process and to facilitate a group decision-making process to anticipate any issues that may surface in identifying and prioritizing goals.

Crime Problems	Enough Data?	Trend?	Comparison Other Data?	Comparison Other Risk Factors?	Interpretation?	Priority? (1-3)	Strength?
